

THE ARTIST

Catherine de Saugy, is a Swiss artist born in Geneva where she studied music and graphic design. Since 1992 she dedicated her time and energy to establishing herself as a professional artist. Pushed by her need of large horizon and her taste to fusion various techniques, she developed a unique and personal style, juxtaposing digital transformation to her traditional oil and acrylic painting. Her discovery of Plexiglas in 2005 was decisive! Since then, her work on these transparent luxurious panels creates depth of field and brilliance breaking the limits of space, taking you into a light kingdom. By its innovative nature, it forms an outstanding contribution to the story of contemporary art.
